

Automatic Piston Viscous Filling Machine AT-NY 2-heads

Automatic viscous liquid filling machine is widely used in the filling of viscous liquid, products in the food, medicine, daily chemical, oil, fishery, pesticide and other industries.

Features

Automatic viscous liquid filling machine is widely used in the filling of viscous liquid, products in the food, medicine, daily chemical, oil, fishery, pesticide and other industries. Such as honey, liquid soap, sanitizer gel, detergent and other viscous liquid filling. The contact parts to the filling materials are made of high-quality stainless steel and meet with GMP standards.
