

Round Bottle Positioning Labeling Machine ST-55B

This machine is suitable for round bottle half wrap or whole wrap, artificial bottle to take bottle, also can connect machine use, paste one label or two labels at a time, apply to a variety of material circular labeling.

Characteristics:

- The control system adopts PLC programmable controller, with the real color liquid crystal display.
- Man—machine interface, makes the operation simple.
- The servo motor controls the calibration.
- This machine is made of SUS 304 stainless steel and aluminum parts and conforms to GMP operating standard.
- According to the needs of the product can be added color band coding machine.
- Can be independent operation. or connect the conveyor line.

Technical Parameters:

Model	ST-55B
Label Width	10-140mm
Label Length	10-300mm
Labeling item width	25-1500mm (can be custom)
Diameter of paper roll	φ76mm
Diameter of the roll	Max350mm
Labeling Speed	12-38M/Min
Voltage Specification	Single-Phase AC220V 50/60HZ
Power	<1KW
