

FKS-50 Automatic Corner Sealing Machine

Basic Use:

1. Edge sealing knife system.
2. Brake system is applied in front and end conveyor to prevent products moving for inertia.
3. Advanced waste film recycling system.
4. HMI control, easy to understand and operate.
5. Packing quantity counting function.
6. High-strength one-piece sealing knife, the sealing is firmer, and the sealing line is fine and beautiful.
7. Synchronous wheel integrated, stable and durable

Technical Parameters:

Model	HP-50
Packing size	W+H \leq 420mm
Packing speed	25pcs/min (Depend on product size)
Net weight	250kg
Power	3KW
Power supply	3 phase 380V 50/60Hz
Max current	10A
Machine dimension	L1675*W900*H1536mm
Table Height	830mm
Belt Size	Front:2010*375*1.5;Rear : 1830*390*1.5
Belt Rotate Speed	24M/min
