

Granules Filling Machine FFG-1M

Measuring cup type particle filling machine granules filling machine fully automatic machine

This machine is metered by adjustable measuring cup, suitable for mixing powder, granules and other materials, used for filling granular materials in food, daily chemical, pharmaceutical products and other industries products.

Measuring cup filling can adapt to a variety of materials, such as sugar, coffee, granules, cereal, desiccant, etc.

Technical Parameters:

Model	FFG-1M
Filling capacity(Gram)	10-100 G (Can be customized according to customer requirements)
Filling speed(BPM)	20-40 B/Min
Filling accuracy	< ±1%
Power supply	customized
Air pressure	0.4-0.6MPa
Power	1.8KW
Net weight	260KG
