

Small Bottle Filling Machine

Small bottle filling machine is suitable for daily necessities, cosmetics, medicine and health care and other industries, and can fill different types of liquid products. Small bottle filling machine has the advantages of high filling precision, convenient installation and commissioning, no drip, simple cleaning and maintenance, and is suitable for customers with frequent material replacement and cleaning requirements. The parts in contact with materials are made of 304 stainless steel (316L stainless steel can be customized), and the all stainless steel frame has the characteristics of clean and tidy, beautiful and generous appearance. The Small bottle filling machine can be equipped with processes such as upper cover and aluminum foil sealing.

Technical Parameters:

1. Filling range: 100-300g, 100-500g, 500-2500g (optional)
2. Filling speed: 2000-3000 bottles / head
3. Measurement accuracy: $\pm 4\%$ G (at 200g)
4. Rated voltage: 220V
5. Rated power: normal working 3.2Kw,
6. Working pressure: 0.6 ~ 0.8MPa
7. Machine weight: about 280kg
8. Number of filling heads: 2-12 (optional)
9. Compatible bottle height range: 80-180mm
10. Compatible bottle width or diameter range: 55-95mm or $\Phi 55$ - $\Phi 95$ mm
11. Compatible minimum bottle diameter (inner diameter): $\Phi 40$ mm (special diameter can be customized)
