

Manual Label Sticker KL-S180

Manual label Sticker applicable industries: food, cosmetics, electronics, plastics, toys, hardware, auto parts, stationery and other industries, automatically attaching self-adhesive labels, self-adhesive films, electronic supervision codes, barcodes, etc.

Product Introduction

- ◆ Manual label Sticker applicable industries: food, cosmetics, electronics, plastics, toys, hardware, auto parts, stationery and other industries, automatically attaching self-adhesive labels, self-adhesive films, electronic supervision codes, barcodes, etc. Realize the selection of labeling on the circumferential surface, conical surface, and double sides of the product
- ◆ Manual label Sticker package type: labeling of round and conical objects such as cups, tubes, cans, boxes, bottles, barrels, etc.
- ◆ Manual label Sticker Function: improve the efficiency of product labeling and film application, accurate application position, good quality, and high stability; avoid manual labeling, low film efficiency, skewed application, blistering and wrinkles, irregular application positions, etc. A series of problems; effectively reduce product costs, improve the aesthetics of product logos, and enhance product competitiveness
- ◆ Manual label Sticker Application examples: liquid round bottle labeling, vial labeling, conical pen cap labeling, shampoo bottle labeling, small taper cosmetic bottle labeling, etc.

Technical Parameters

Model	KL-S180
Voltage	AC220V 50-60Hz
Power	40W
Labeling Speed (pcs/min)	25-50
Labeling Accuracy(mm)	±0.5mm
Roller Diameter	≥ φ 75mm
Roller Outside Diameter	≤ φ 260mm
Bottle Size	Diameter: φ 15-150mm
Label Size	W:20-140mm, L:30-200mm
Dimension	880x300x350mm
Weight	21kg
