

ZHZQ30-1N Glass Prefilled Syringes and Stoppering Machine

Prefilled syringe filling stoppering machine is used to fill glass prefillable syringes and insert stoppers into syringe barrels. The filling volume of this syringe filler is 0-20 ml.

Advantages

1. ZHZQ30-1N prefilled syringe filling stoppering machine has one year warranty period. We will provide wear parts for free except caused by human factors.
2. This syringe filler introduces European technology. It is certified by CE and SGS.

Package, Delivery & Payment

Our prefilled syringe filling stoppering machines will be packaged in wooden boxes. They are delivered by sea, airplane or by land. Payment by T/T or L/C is acceptable.

Technical Parameters

Filling Volume	0-20 (ml)
Filling Accuracy	$\leq \pm 3\%$
Suitable Syringes	0.5, 1, 2.25, 3, 5, 10, 20 (ml)
Theoretical Output	20-25 pc/min (1200-1500 pc/hour)
Motor Power	1.1 Kw
Overall Dimension (L×W×H)	1560×800×1800
Machine Weight	650 kg
