

Sachet Water Filling Machine SYJ2000

Sachet filling machine is high precision packing machine and the most advanced liquid compound packing machine in china, which is standing, three side sealing and intermittent. It can automatically complete Bag-making, filling, sealing, printing, cutting and counting. Controlled by microprocessor and automatic photocell. It is widely used to pack all kinds of liquid without gas, especially soy, wine, vinegar, juice, soybean milk, peanut oil, vegetable oil, plant oil, mineral water and liquid chemical products.

Application:

Function: Sachet water filling machine	
Suitable for: Water Sacet / Water pounch	Bottle sizes: 250ml ~ 1L
Filling system: Volumetric filling	Capacity: 2000BPH
Application: still water, pure water, RO water, mineral water, sparkling water, etc.	

Technical Data:

Model	SJY2000
Capacity	2000 bags/hour
Packing weight	1-10kg
Packing size	L30-150×W60-160mm
Material of pack film	single layer plastic film
Weight	270kg
Overall dimensions	850×1350×1800mm
Material	Stainless steel
Filling type	Piston type
Total power	380V
Control Type	Automatic type
