

Vertical Bag Powder Packing Machine

Vertical Bag Powder Packing Machine is suitable for packing powder materials like all kinds of flour, washing powder, fine sugar, milk powder and ect.

Features:

1. Roll film can be formed to the bags though the bag former.
2. Constant temperature sealing knife, the sealing edge is tidy and beautiful by the gum cover device.
3. Accurate position, the speed can be set and with stable operation.
4. English or other language display screen, stainless steel construction, machines no need to stop when you want to adjust the parameter.
5. Small volume size for storage, light weight for moving, high efficient with low energy consumption, low noise for safety operation.

Technical Parameters:

Packing speed:	15-50 bags/min
Bag-making size:	(L)80-300mm(W)80-200mm
Filling range:	10 to 1000g
Packing materials:	OPP/CPP PET/PE etc. compound film
Film thickness:	0.04-0.08mm
Air consumption:	0.8m ³ /min
Power supply:	AC220V 50Hz 3.5kw
