## 40-40-10 Fill Machine For Beer Industrial Plant

HEM design 40-40-10 beer bottle rinsing filling capping machine adopts Counter pressure filling technology, this machine is specially designed for beer filling. The machine has the advantages of high speed, reliable output, compact design and stable operation. The machine is suitable for medium or large capacity breweries.

### Technical Parameters:

Capacity	8000-10000BPH
Air consumption	0.4m <sup>3</sup> /m
Co2 consumption	180g/100L
Vacuum pump water consumption	1.0m <sup>3</sup> /h
Rinsing water consumption	3.0m <sup>3</sup> /h
Rinsing pump motor	0.55kw
Vacuum pump motor	5.5kw
Hopper motor	0.37kw
Main motor	5.5kw
Size	4200*3000*2700mm
Weight	8000kg
