

Vertical Bag Filling And Packaging Machine

Features:

1. Vertical bag filling and packaging machine integrates bag making, filling, sealing, printing and punching, and counting.
2. The film is pulled by three-servo motor synchronous belt, which has the function of automatic deviation correction.
3. The cutting knife can use one of three methods: flat knife, sawtooth, and dot-dash line.
4. PLC and other control components are all made of international famous brand products with reliable performance.
5. The horizontal seal can also use the servo motor to operate smoothly and reliably.

Packaging Machine:

- Bag Length: 80-400mm(L)
- Bag width: 80-300mm(W)
- Film width: 600mm
- Packaging speed: 30-50bag/min
- Measurement range: 100-500g
- Barometric pressure: 0.65 mpa
- Air consumption: 0.3/min
- Voltage Voltage: 220 v / 50 hz
- Output power: 3.0 KW
- External size: (L) 1795mm
