

## *HU-450W/HU-600W Reciprocating Pillow Type Packaging Machine*

450W and 600W reciprocating pillow type packaging machine is designed for biscuits, rice, snow cakes, bread, instant noodles, rice noodles, daily necessities, paper towels, sanitary napkins, industrial parts, and regular objects such as cartons or trays have large gussets bag packaging.

### **Features:**

1. Double frequency converter controlling, the bag length can be set and cut quickly. No need to adjust empty, one step in place, saving time and film.
2. Human-machine interface, parameters setting is convenient and fast.
3. Fault self-diagnosis function: the fault display is clear at a glance.
4. High-sensitivity photoelectric eye color tracking, digital input sealing and cutting position, making the sealing and cutting position more accurate.
5. Temperature independent PID control, better suited to a variety of packaging materials.
6. Positioning stop function: no sticking knife, no waste film.
7. The transmission system is simple. The operation is more reliable, and the maintenance is more convenient.
8. All control is realized by software, which is convenient for function adjustment and technology upgrade, and never lags behind.

**Parameters:**

| <b>Model</b>         | <b>HU-450W</b>         | <b>HU-600W</b>         |
|----------------------|------------------------|------------------------|
| Film width           | Max.450mm              | Max.600mm              |
| Bag length           | 120~450mm              | 120~450mm              |
| Bag width            | 50~160mm               | 50~200mm               |
| Product height       | 10~80mm                | 10~80mm                |
| Film roll diameter   | Max.320mm              |                        |
| Packing speed        | 20~75bags/min          |                        |
| Power Specifications | 220V,50/60HZ,3.2KVA    | 220V,50/60HZ,3.6KVA    |
