

Food Metal Detector Machine EW-MD120/150/200

It is suitable for automatically detecting metal leakage (such as iron, copper, lead, stainless steel, etc) fallen in the food packaging, raw material, and goods.

Features

- ▼ Widely used in food, chemical, toys, and other fields for metal detection.
- ▼ 32 kinds of multi-language selection, with touch screen, easy to operate.
- ▼ Three speed, suitable for connecting packing line of different speed.
- ▼ The frame is stainless steel 304, anti-erosion and long life span.
- ▼ Independent automatic sorting device for weight checking and metal detecting.

Parameter

| Type | | EW-MD120 | EW-MD150 | EW-MDB150 | EW-MD200 |
|--------------------------|----------|--------------------------------------------------------------|----------|-----------|----------|
| Pass size | Height | 120mm | 150mm | 150mm | 200mm |
| | Width | 300mm | 300mm | 400mm | 400mm |
| Detection sensitivity | Fe (mm) | 0.7mm | 0.8mm | 0.8mm | 1.0mm |
| | SUS (mm) | 1.2mm | 1.5mm | 1.5mm | 2.0mm |
| Max.transportable weight | | 2kg | 2kg | 6kg | 6kg |
| Speed | | 32-52 meter/min | | | |
| Alarm way | | Automatic rejection / indicator lamp / sound and light alarm | | | |
| Power supply | | AC220V, 50Hz, 150W | | | |
