

Link-520ZK Automatic Sachet Packing Machine

Features:

1. Chinese and English touch screen display, intuitive operation, simple.
2. PLC computer control system, more stable operation, can adjust any parameters without stopping.
3. Can store ten groups of parameters, replace the variety more accurate.
4. Servo motor pull touch, more accurate positioning.
5. Independent temperature control system, accuracy up to $\pm 1^{\circ}\text{C}$.
6. Horizontal and vertical sealing temperature independent control, can be good for a variety of composite film, aluminum film and other packaging materials.
7. The variety of packaging style, back seal, insert Angle, even bag, punching and so on.
8. Bag making, sealing, packaging and printing date can be completed in one time.
9. The working environment is clean and the noise is small.

Technical Parameters:

Model	Link-520ZK
The bag type	Back seal pillow bag
The bag size	L:80-350MM W:100-250MM
Packing speed	8-20 packages/points
The power supply	3kW ;220V; 50HZ
Chassis appearance	Stainless steel
Gross weight	650KG
Size	L 1430 W 1200 H 1700 mm
