

ZONESUN[®]

ZS-YT Filling Machine

ZONESUN[®]

Compared with before pneumatic filling machine, this liquid filling machine is controlled by air pressure totally. The machine body may get heated due to the electricity. So this full pneumatic filling can ensure the machine body is cool during working. It is designed for filling flammable liquid like alcohol.

Technical Parameters:

Model :	ZS-YT Filling Machine
Filling Nozzle :	Single Nozzle (We also offer Double Nozzles)
Filling Speed :	5-30 bottle/min
Filling Range :	10-100ml/30-300ml/50-500ml/100-1000ml/500-3000ml/1000-5000ml
Accuracy :	$\leq \pm 0.5\%$
Prassure :	0.4-0.6Mpa
Air Capacity :	>30L
Package Size :	1220*375*365mm
Package Weight :	35.5kg
