

## *WB-YG4 Syrup Liquid Beverage Juice Spray Bottle Filling Machine*

Machine use plunger type metering pump filling, high precision; The structure of pump adopts fast disassembled mechanism, easy to clean and disinfect.

PLC control system, color touch screen display, machine has function of counting automatically.

The filling nozzle was equipped with drip-proof device.

### **Usage And Features**

This filling machine suitable for filling and capping semi-liquid products without or with small particles: such as sweet chili sauce, beef paste, bean sauce, mushroom sauce, tomato sauce, peanut butter, jam, honey, sauce, shrimp paste, shampoo, body wash, liquid detergent, dish washing liquid, etc.

1. Machine use plunger type metering pump filling (when the filling volume difference is large, the corresponding pump body needs to be replaced), high precision; The structure of pump adopts fast disassembled mechanism, easy to clean and disinfect
2. PLC control system, color touch screen display, machine has function of counting automatically.
3. The filling nozzle was equipped with drip-proof device.
4. When filling liquid, the filling nozzle dive into the bottom of bottles, rising slowly, can effectively prevent the generation of troubles.

**Technical Parameters:**

<b>Model</b>	<b>WB-YG4</b>
<b>Filling Head Number</b>	4(can customerised)
<b>Filling Volume</b>	50-500ml
<b>Capacity</b>	10-40 bottles/min
<b>Filling Accuracy</b>	$\leq \pm 1\%$
<b>Pass Rate</b>	$\geq 98\%$
<b>Power Supply</b>	1ph 220V, 50/60Hz
<b>Power</b>	3.0 KW
<b>Net Weight</b>	600kg
<b>Overall Dimension</b>	2200*1500*1900mm
