

TOPY-AC1 Acclivitous Conveyor

Acclivitous Conveyor is very well suited for snack foods, frozen foods, vegetables, fruits, confectionary. Chemicals and other granules.

Features

- The baffle belt that contacts the material is assembled by modular chain plates, and the long belt can be assembled freely and flexibly
- The material is food-grade polypropylene (PP) material, which is beautiful in appearance, not easy to deform, and can withstand high and low temperatures.
- It can be combined with other supporting equipment to form a continuous or intermittent automatic weighing and packaging production line, and it is easy to maintain, easy to disassemble, and easy to clean.
- Non-standard size can be customized according to customer requirements.

Parameter

Model No.	TOPY-AC1 Acclivitous Conveyor
Material	#304 Stainless Steel
Production Capacity	4-6.5m ³ /H
Machine Height	3520mm
Machine packed size	6090mm(L)*660mm(W)*650mm(H)
Machine Weight	600KG
Voltage	AC 220V single phase or AC 380V , three phase.50Hz;
Power	1.1KW
