

KIS-1800 Rotary Type Milk Bottle Sealing Machine

KIS-1800 Rotary Type Milk Bottle Sealing Machine is suitable for the production of bottle filled product film heat sealing packing, such as agricultural chemicals, toilet detergent, bleach, juice, milk, yogurt and other products. The machine adopts PLC, pneumatic control elements, and intelligent digital display temperature control system. It has the characteristics of high sealing strength, good air tightness, and low failure rate. It is the first choice for enterprise automated assembly line production. It can connect with other related packing machines easily.

Technical Parameters

Model	KIS-1800	
Production Capacity	1600-1800 canisters/hour	3000-3600 canisters/hour
Filling Range	100-1000ml or customized	
Power	Single phase 220V, 3 phase 220V 3 phase 380V/400V/415V 50Hz/60Hz	
Power	1.5 Kw	3 Kw
Air consumption	0.8 m ³ /min	0.8 m ³ /min
Dimension	1500mm×1700mm×1650mm	2100mm×2500mm×1750mm
Weight	500Kg	750Kg
