

LWTY-2 series Tableware Applicator

LWTY-2 Series tableware applicator is a Leiwest Pak's patent, applying the innovative rotary in-feeding method which ensures the accurate location of each package, glue point and tableware when running in high-speed, thus ensures excellent pasting.

LWTY - 2 series tableware applicator is used to paste straw, spoon, fork and other utensils on the outer surface of circular, triangular, quadrate package that greatly enhance the customer's product hygiene and safety. The machine is compact and easy to operate. It can be changed quickly to fit different packaging shape and even paste fork and straw on the bowl or cup of instant noodle and jelly.

There are LWTY-2-Z, LWTY-2-S, LWTY-2-W and LWTY-2-B accordingly in LWTY-2 Series which are used for packing production line of plastic cup (bottle) and bowl-shape or cup-shape instant noodles.

Technical Parameters

Dimension	1400mm (L) × 815mm (W) × 1750mm (H)
Power supply	380V AC / 50Hz
Power	5.5Kw
Instrument air	0.7MPa (7bar)
Normal speed	8 000 packs/hour
Maximum speed	10 000 packs/hour
