

Vertical adhesive labeling machine HHLT

Apply to round bottles and round objects in various industries. Adopt stepping motor control, operation screen. Accurate labeling, small error and high efficiency. A fault and numerical alarm device (optional), and the printer connection can output shift production record, can detect the production status automatically.

Technical Parameters:

| | |
|--------------------------------|---------------------|
| Label length | 10-200mm |
| Inner diameter of label's core | 76mm |
| Puter maximum diameter | 350mm |
| Label width | 10-80mm |
| Labels speed | ≤35m/min |
| Power source | 220V 50Hz |
| Bottle range | 18-100mm |
| Power | 0.8kw |
| Weight | 300kg |
| Size | 2000 x 600 x 1350mm |
