

Automatic High-speed Carton Packing Machine

Main performance and functional characteristics:

- >Stainless steel frame, with nice & top grade appearance, stable operation;
- >Simple operation, available for wide usage, set the running speed on basis of desired capacity;
- >Accomplish automatic sucking box, opening box, putting box (manually), folding ear, spraying glue, pressing box to desired shape, output etc;
- >Equip with imported brand Glue Sprayer with reliable performance;
- >Adopt the PLC and touch screen controlling, it's able to set the spraying styles (by dot-spray or line-spray) according to the sealing requirement on the box & product;
- >Be able to integrate with the ribbon printer, thermos transferring printer, ink-jet printer etc;
- >Lessen the labors sharply, and improve the packing quality and production effectiveness;
- >Be able to coordinate with other packing equipment or single one with complete automatic production line.

Usage:

- >Suitable for foods, pharmaceuticals, chemical & hardware industries.

Technical Parameters

- >Packing speed: 30-80 boxes/min (adjustable speed)
- >Box size: L 120-200mm×W 80-160mm×H 30-60mm
- >Electricity: 380V 3Phase 50-60HZ, 4.5KW
- >Dimension: L 5000× W 1700×H 1800 mm
