- ◆ Servo filling system can easily switch between different filling modes.
- ◆ Tank has the functions of stirring, pressuring, heating and heat preservation.
- ◆ The application of the manipulator to grasp tube, wiper and brush cap ensures the stability of the whole machine.
- ◆ Servo capping can prevent the cap from scratching, the torque can be adjusted easily.

### Technical Parameters

Model	JR-01
Out dimension	3725*1660*2120MM(L*W*H)
Voltage	AC 380V(220V),3P,50/60Hz
Power	2 KW
Air supply	0.6-0.8Mpa
Filling volume	5-30ml
Bottle diameter	15-55mm
Output	40-45 pcs/min
Weight	1300kg
