

CF-40T-H Case Erectors

The innovative full automatic tray former easily folds a variety of corrugated cases - from double wall to recycled material, and can form up to 60 cases per minute.

Performance-proven on packaging lines spanning East Asia, this case erector / bottom sealer gives you so much more. It's powerful, with a continuous motion drive that speeds through case forming and sealing from 20-60 cases/min. It's smart, with PLC electronics that control operation, document performance and take the guesswork out of diagnostics. It's operator-friendly, with simple touch screen controls and an easy-refill case magazine. With easy changeover and features to accommodate poor corrugated, this case erector is a solid addition to your packaging line. The CF-40T-H is designed with your needs in mind. Not only, it's the highest quality bottom sealer in the industry; but it is also the most cost effective.

Technical Parameters

Model	CF-40T-H
Power supply	380V \pm 10%/50Hz /2.5KW(Three-phase four-wire system)
Air pressure	4-6kg/cm ²
Tape width	4.8-7.2cm tape max.Length 2km
Working speed	20~60 cases/min
Case Size	Custom-made
Sealing specification	Custom-made
Sealing type	Hot glue
Outside dimension	L4250 x W2000 x H1700mm
Electric adoptions	Adopt TAIWAN "CPG" or "DONG LI" motor.
Worktable height	1000mm
Machine weight	1000kg
