

YS-186 Continuous Packing Machine

YS-186 is suitable for packaging of food, cosmetic powder, liquid, sauce and other items. It can automatically complete bag making, metering, blanking, sealing, slitting, counting, and can be configured to print batch numbers and other functions according to customer requirements. Use touch screen to operate PLC control, drive servo motor to control bag length, stable performance and easy adjustment.

Technical Parameters

Model	YS-186
Bag type	1. Three side sealing
	2. Four side sealing
Standard capacity	30-120 bags/min
Size of bag	Width : 45-80mm
	Length: 80-150mm
Measuring Scope	1-20g
Packaging material	PE composite film
Total power	3.5KW
Outer dimensions (appr .)	1900*1500*900 mm
Weight (appr .)	450kg
Power supply (optional)	220V /50Hz
