

## Vacuum Food Packing Machine DZ-600S

Vacuum packaging machine with trolley and double lateral sealing bars, made of stainless steel (AISI 304). Equipped with digital panel and volumetric electronic sensor for the steady control of vacuum. Volume increased chamber and convex lid for a max height of 250 mm. The vacuum pump of 40m<sup>3</sup>/h with three-phase 380 V motor ensures high productivity.

The two side bars with a length of 60 cm allow to pack more bags simultaneously (on one or both of the bars), reducing packing times.

Is however possible to use it with a single bar.

The DZ 600 2S packaging machine is also used for the vacuum seal and the jars of creams, jams, etc.

The vacuum chamber utilizes specific smooth envelopes for vacuum.

### Parameters:

Model	DZ-600/S
Voltage (V/Hz)	AC 380/50 220/50 110/60
Motor power (W)	1800
Sealing Power (W)	1000
Ultimate Vacuum Pressure (Kpa)	1
Sealing Width (mm)	10
Chamber Dimension (L×W×H) (mm)	700×620×250
Vacuum Pump capacity (m <sup>3</sup> /h)	20×2
Material for Vacuum Chamber	SUS304
External Dimensions (L×W×H) (mm)	740×770×970
Net Weight (Kg)	Approx.173
