

Shrink Sleeve Machine TF-6540SA

The most versatile and economical sleeve-wrapper with semiautomatic feeding to make multipacks of different size of various products (bottles, vases, jars, pots, cans, phials, cases etc) and/or to protect boxes integrating and/or replacing the use of carton boxes at end-of-line with great management advantages. The sealing area is independent from the tunnel. The machine works in a very simple way: a pneumatic pusher drives the products from the loading area towards the sealing area. Then a transversal sealing-bar (that has a pneumatic movement and temperature is electronically controlled) cuts and seals the film.

Parameters:

Model	TF-6540SA
Voltage(V/Hz)	AC 220/50 110/60
Air Pressure Required(kg/cm ³)	5-7
Power (kw)	1.5
Max Packing Size(L×W×H)(mm)	550×400×380
Max. Sealing Length (mm)	650
External Dimension (L×W×H)(mm)	925×1040×1920
Net Weight (kg)	300
