

DZH-400 Automatic Cardboard Machine

The DZH-400 automatic high-speed cartoning machine is designed for cartoning pharmaceutical plates, pillow bags, plastic tubes, bottles, ampoules, and other similar products, with a continuous speed of 360-400 boxes/min.

Features

1. The use of a human-machine interface, PLC control, frequency conversion speed regulation, and electrical components from internationally renowned brands.
2. A new advanced international chain-row structure.
3. Equipped with a domestic advanced paper folding machine, fast and smooth paper output.
4. Using a multi-group suction head with a rotary box opening method, and accurately placing the box.
5. Adopting a multi-pusher back feed structure, with smooth action and fast speed.
