

BM-XL Linear Weighing Packaging Machine

The BM-XL Linear Weighing Machine is suitable for packaging powder and granule products. It can be preferred for any type of product in the production of high-weight packaging with the choice of linear, weighing or screw filling unit. It can be equipped with different types and sizes of filling units according to product type and targeted capacity. Filling sensitivity may vary depending on product type and density.

All surfaces in contact with the product are AISI 304 stainless steel and suitable for food. Easy capture kit set. It is able to design easy speckle. Continuous control of the printer is connected to the automatic stopping process is avoided unprinted and incorrect printing. Bike sliding film riding unit with AC motor. Pneumatic orientation horizontal jaw welding and cutting unit is made more robust. Cold or hot welding techniques depending on the type of packaging. It is capable of assembling in accordance with CE standards.

You can make your operations easier by the options of using different languages and the easy-to-use touch screen. The product is very popular with users and allows you to do more with the processing speed. By this way you can fit more packaging in less time.

Optional Equipment:

- The hold or easy transport equipment,
- Pre-line transfer equipment with screw or bucket,
- Take away conveyor,
- Post-line stacking and transfer bands,
- Thermal Transfer or Inkjet printer date writing.

Technical Specifications:

| | |
|-------------------------------|------------------------|
| Width | 3280mm |
| Length | 3670mm |
| Height | 5180mm |
| Weight | 3100kg |
| Production Speed (Number/Min) | 20 |
| Package Length | 220mm - 750mm |
| Package Width | 220mm - 480mm |
| Film Coil Diameter | max. Ø500mm |
| Film Coil Width | 720mm - 1020mm |
| Power Consumption | 7.5 Kw |
| Operating Voltage | 380V 3 Phase 50Hz |
| Air Consumption | 300 Lt/Dakika - Minute |
