

JS-09H Automatic Instant Disposable Cup Bottom Powder Tea Filling Sealing Machine

The automatic instant tea bottom cup filling machine is suitable for filling and sealing powdery materials, such as coffee powder, tea powder, cocoa powder, milk powder, protein powder, nutritional powder, ginger powder, etc. Can be customized according to customer's material.

Feature

1. The machine can automatically complete processes such as cup placement, metering, filling, film placement, heat sealing, and finished product output.
2. PLC control can keep the machine work stably.
3. The machine frame uses u-steel with a waterproof and rust prevention process, out packed by stainless steel #304.
4. Adopt brand electrical components, long service life and reliable quality.
5. Moving molds are made by aluminum material, extraordinarily durable and sanitary.

Specification

Filling Range	5-25g (Can be customized)
Filling Head Number	4 heads
Filling Accuracy	±0.1g
Air Supply	0.6-0.8Mpa
Packing Speed	2500-3000 pcs/hour
Power	220V, 50/60Hz, 3.5KW
Machine Weight	1000Kg
Machine Size	3800(L)*750(W)*1750(H) mm
