

CM-50JHT Labeling machine

Labeling machines are applied to various operations such as sticking a label on plane, post surface, single side or multi-sides of a package, sticking labels covering part or all of the surface of a cylinder, or sticking on sunken locations and at edges or corners.

We can offer simple and economical solutions in China according to your requirements.

This model is designed for labeling square Container or cylindrical container (usually diameter Φ 50~ Φ 120mm; for other abnormality container, it will be usable to make slight modification on the existing Basis of the machine

Technical Parameters:

Model	CM-50JHT
Power supply	3PAC380V 50/60HZ 1.5KW
Air pressure	2-5 kg/cm ²
Applicable container	label square or cylindrical container on the side surface
Applicable container range	diameter Φ 50- Φ 120mm, H50-320mm
Applicable label range	L110-200mmxH40-1 10mm
Applicable material	paste/glue
Label capacity	500pcs
Labeling speed	40-120pcs/min
Labeling precision	\pm 2mm (except container error)
Table height	850 \pm 50mm(customizable)
Machine dimension	L2500mmxW1100mmxH1100mm
Machine weight	300kg
