

## Vacuum Homogenous Mixer HM

We not only provide professional Extraction Machine, Sterilizer, Tablet Machine, Ointment Filling Machine, but also offer high quality Vacuum Homogenous Mixer.

### Features:

1. Water, oil solution mixing tank with heating system for convenient of raw material heating and dissolving.
2. Vacuum system: the oil and water solution can be conveyed to emulsifying tank by vacuum transfer in a closed operation.
3. Set variables during operation: heating temperature, homogeneous speed, scrapper speed.
4. Automatic process: heating/emulsify/vacuum/cooling
5. Oil hydraulic system: lift up the scrapper with cover for easy cleaning.
6. To use operator interface (process visualization) control system for the whole process automation.

### Specification:

Model	Full Capacity	Dimension (mm)			
		Length	Width	Height	Max.H
YC-HM-100	100L	2000	750	2450	3450
YC-HM-150	150L	2100	800	2500	3500
YC-HM-200	200L	2350	870	2600	3600
YC-HM-250	250L	2400	900	2650	3700
YC-HM-300	300L	2440	930	2700	3800
YC-HM-500	500L	2800	1350	3000	4350

\* Specifications subject to change without notice.

### Applications:

1. Pharmaceutical: ointment
2. Cosmetic: cream, toothpaste etc.
