

Automatic Quantitative Filling and Packaging Machine JS-18

Product Features:

- This model is PLC control for easy operation.
- Equipped with photo-cell device for accurate bag forming, sealing and cutting performance.
- The sealing and cutting operations are air cylinder activated for fast, highly efficient operations. The air cylinder components are high quality Japanese and German imports.
- This unit can perform pillow type packaging.
- Equipped with a product counting device.
- All components in direct contact with the product are made of stainless steel, conforming to sanitary standards.
- The entire procedure from weighing, bag forming, filling and sealing to cutting and packaging is fully automatically operated.
- Machines can be made to customers' own specifications on request.
- Machine is pneumatic sealing for superior bag forming.
- Machine can equip with vibration loading system with agitator for packaging hard fluidness products.

- Applicable packing products: Powders, granules, tablets... etc...Such as sugar, salt, tea, beans, medicine, health foods, various snacks.
- Applicable packing materials: Poly-Cello. PET+PE+Aluminum Foil+PE,OPP+PE, Aluminum Foil+PE and other heat sealable materials.
- Standard Equipment: Tool box containing: 1 x Box wrench. 1 x Hexagonal Wrench. 1 x Screwdriver. One set of Conveyor.
- Optional Equipment: Automatic quantity warning device. Automatic Date Coder. Easy opening device. Input conveyor. Output conveyor.

Specifications:

Packaging type (One option only)	Pillow type packaging
Packaging weight	100-2000g (varies with product density)
Packaging size	Film width (W)200-480mm
	Bag length (L)120-240mm (Other size are available upon request)
Packaging speed	About 20~50 bags/min
Motor	1/4 HP (Main drive)
Power supply	110/220V, 50/60HZ single phase (can be made upon request)
Machine dimensions (L x W x H)	130x130x205 cm (Approximately)
Packing dimensions (L x W x H)	150x143x223 cm (Approximately)
Net weight	750 kgs
Gross weight	900 kgs
