

## *Case Erector Bottom Case Sealer SBM-CE10*

The Model SBM-CE10 case erector bottom sealer is an automatic carton sealer system that erects and bottom seals corrugated cases at speeds from 500 to 720 cases per hour. Our value-priced case erecting equipment is ideal for applications that require more throughput than manual case erecting can provide. This versatile carton erector system creates instant labor savings and increased production for a wide range of medium-speed applications. With industry-leading standard features like powered magazine and low-case and low-tape alarms, and fast no-tool changeovers, the Model SBM-CE10 carton erector is a simple, operator-friendly solution for your packaging line.

### **Features**

- High-capacity powered case magazine holds 50-80 cases (depend on the thickness of case)
- Small footprint design minimizes floor space
- Low-case & low-tape alarms with stack light assure continuous operation
- Safety interlocked guarding restricts access to moving parts
- UP to 12 cases per minute operation for medium speed packaging lines
- Labor saving design
- Square, tightly sealed cases
- Easy operation
- Fast changeovers

## Technical Info

<b>Model</b>	<b>SBM-CE10</b>
Speed	up to 12 cases per minute
Case Size	L (200-450) *W (200-400) *H (50-400) mm
Tape Width	48mm, 60mm
Power	200w*3
Power supply	AC220V/50Hz AC380V/50Hz Optional
Workable Height	470-780mm
Air Pressure	5-6kg/cm3
Dimension	(L)2000*(W)1900*(H)1450mm
Machine Weight	400kg
