

Shrink Sleeve Labeling Machine LBL-350B / 450B

Features:

LBL-350B / 450B type

Imported color touch screen.

The machine can operate at the same speed, there is no inverted bottle, label missing.

Super servo motor configuration, transmission lines motor encoder configuration, automatic electric eye tracking, and automatic steeples speed across the board.

LBL-350B / 450B Type Features

The machine is a new type of advanced heat shrinkable sleeve labeling machine drives, four-wheel drive, automatic centering, a device four-wheel balanced pressure. It reached a smooth, stable, fast label transmission.

Electrical Appliance Configuration Specification

This type of trapping label machine are all imported configuration using appliances, high-speed positioning module, imported servo motor, servo drives, servo controller, automatic adjustment as humanized operation.

Applicable Variety Types of Casting Label

This model speed of 350 bottles -450 bottles / min, suitable for all kinds of bottles of fruit juice, tea drinks, dairy products, pure water, condiments, beer, sports drinks and other food and beverage industry, not only sets of standard position accuracy After more prominent and the contraction of the perfect bottle-shaped bottle.

Machine Specification:

model	LBL-350B	LBL-450B
Input power	3.0KW	6.0KW
Input voltage	φ3380/220VAC	φ3380/220VAC
Productivity	350 Bottles / min	450 Bottles / min
Host size	L2100mm×W1100mm×H2000mm	L2500mm×W1200mm×H2000mm
Applicable bottle diameter	Φ28mm-Φ125mm	Φ28mm-Φ125mm
Applicable label length	30mm-250mm	30mm-250mm
Applicable Thickness of Label	0.35mm-0.13mm	0.35mm-0.13mm
For paper tube diameter	5" -10" Free adjustment	5" -10" Free adjustment
