

TT-60™

HORIZONTAL CARTONER

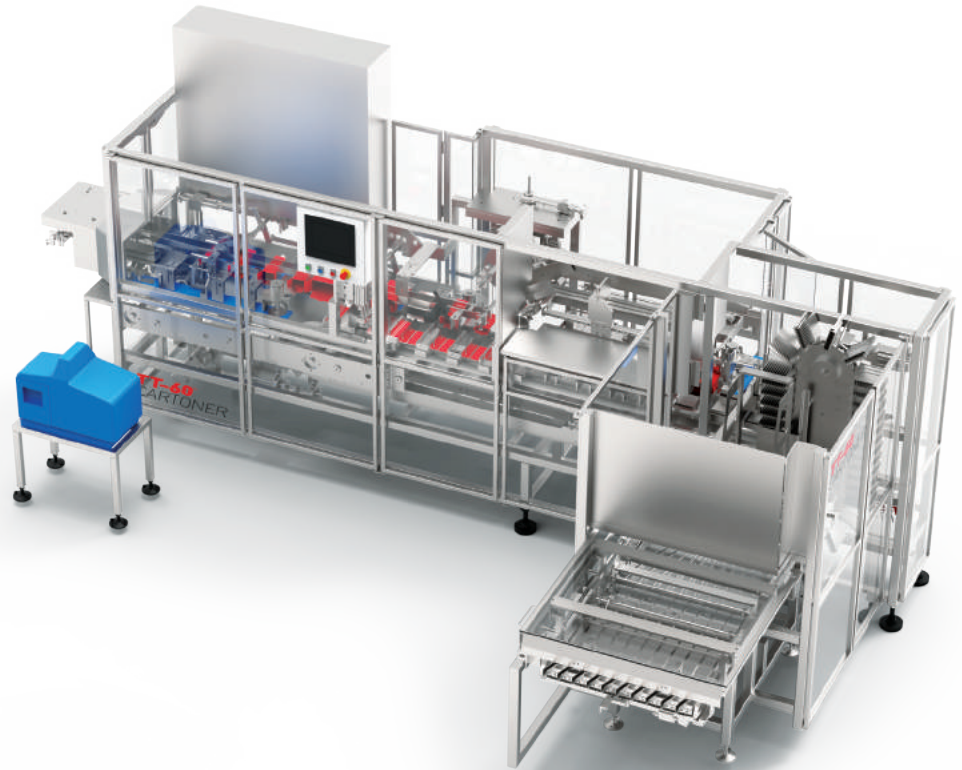

Built solid

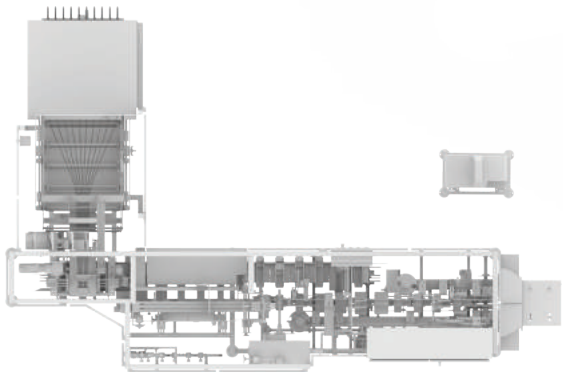

TT-60 features stainless steel frames, powered carton magazines, rotary carton erectors, fixed size or adjustable conveyors, or PLC controls with self-diagnostics. A wide assortment of options include embossers, inprinters, leaflet placers, and servo controlled product handling devices. The TT-60 can collate products, and load them into a carton, or a display pack.

KEY FEATURES

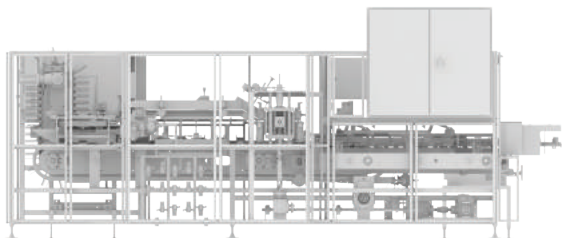

- **COMPACT FOOTPRINT**
- **QUICK CHANGEOVER**
- **MULTI-PACKING APPLICATIONS**
