

Automatic Case Edge Sealing Machine RY-BZ-4

Main performances and features:

- To manually adjust machine width and height based on the carton size and to automatically seal 4 angle side.
- Simple operation, easy to use and adjust, fast speed, high efficiency, durable, can be combined into the automatic packaging line.
- Using special design, automatic sticking and smoothing of adhesive tapes, perfect sealing
- It can enhance the image of new products, using printing tape.
- This machine is applied to household appliances, textiles, food, general merchandise, medicine, light industry, chemical industry and other industries
- It can be combined with the automatic case sealing machine into I-shaped carton sealing.

Technical specification:

| Model | RY-BZ-4 |
|-------------------|------------------------|
| Power | 220V/50HZ 1kw |
| Max packing size | L600*W500*H500MM |
| Min packing size | L200*W200*H150MM |
| Speed | 460-600 ctns/hr |
| Tape width | W48/60/75mmxL1000 code |
| Overall dimension | L1905xW1330xH1530mm |
| Weight | 440Kg |
