

## Powder Filling Capping Machine

This Powder Filling Capping Machine is suitable for 2 to 500g of various materials and all kinds of round flat plastic or glass bottle's powder filling and capping. The machine's indexing sub-plate positioning the upper plug lower cover is provided by the high-precision cam indexing mechanism. Acceleration cam drive provides lifting, constant-torque capping, high-precision screw metering filling. Touch screen control, no bottle not filling, no plug, outer cover. It has the advantages of precise positioning, smooth transmission, protection of bottle caps, accurate measurement and simple operation. Fully comply with national GMP requirements.

### Technical Parameters:

Applicable Specifications	2-500g
Production Capacity	20-50 bottles/min
Filling Accuracy	$\leq \pm 1\%$
Rotation (Rolling) Cap Rate	$\geq 99\%$
Automatic Plug Rate	$\geq 99\%$
Gas Supply	1.3m <sup>3</sup> /h 0.4-0.8Mpa
Voltage	220V/50Hz
Power	2KW
Machine Size	2200*1000*1600mm
Weight	500KG
