

## Oscillating Granulator YK60/90/160

Widely used in pharmaceutical, chemical and foodstuff trades etc. It can make wet powdery material into granulates or crush block dry material, as well as carry out speedy granulation.

The drum swing repeatedly through mechanical drive, which makes the material extruded from sieve and become granules.

### Specification:

Model	YK60	YK90	YK160
Hobbing cutter diameter(mm)	60	90	160
Hobbing cutter rotation speed(r/min)	±46	±50	±65
Hopper dimension(W*D) (mm)	200*150	300*280	500*480
Production capacity (kg/h)	20—25	50-100	100-300
Motor (KW)	0.37	0.55	2.2/3
Overall size (mm)	500*400*540	750*460*840	970*700*1110
Weight (kg)	53	100	300
