

## Centrifugal Tube Filling Press Machine XQLXG -2S

### Application:

1. It is widely used in precision, quantitative loading / dilution of pharmaceutical, pharmaceutical, food, chemical, cosmetic and other industries.
2. Pre-chromatography preparation, pharmaceutical QC and R&D, environmental monitoring, mineral and blood analysis, forensic identification.
3. Used for precise quantitative loading / dilution of blood, biological reagents, oral agents, injections, advanced cosmetics, flavors, fungicides and other liquids.

### Characteristic

1. Automatic dual-channel bottle loading, filling, capping and discharging.
2. The machine is made of stainless steel 304.
3. This equipment adopts Japanese sensor, Taiwan precision cam for the accurate positioning;
4. The filling part adopts the precision ceramic pump developed independently, and the repeated accuracy can reach  $\pm 0.3\%$ .
5. Sensor recognition to realize the function of stopping filling without bottle.
6. The size of the machine can be customized according to the customer's need.

### Technical parameters

Target Products	centrifuge tube
Manufacturing speed	40-60 pcs/min
Power	AC 220V 50-60Hz / 450w
Air range	0.5-0.7Mpa
