

BYGZ-II Ampoule Printing Machine

BYGZ Silk-screen ampoule printing machine ampoule printing machine is a group fired inside and outside the printing line characteristics, especially for horizontal, vertical ampoule production line of 1ml, 2ml, 5ml, 10ml, 20ml and non-national standard ampoule of glaze printing, printing, sintering of the words writing clear, shiny glaze, fired a solid, bright color. Meet the GMP requirements of the word BU printing, and can meet users ampoule bottle printing needs.

Technical parameter:

Model	BYGZ-II
Function	Putting ampoule auto, printing, sinter,
Date Suitable	Ampoule: 1-20 ml
Capacity	7500pcs/hour (frequency)
Oven	Electric :20KW
Coal gas consumption	1.5Kg/hour
Motor	0.75KW 380V
Overall size	(LxWxH) 7000×600×1250mm
