

High Efficiency Case Sealer Machine WKD-ZGF

- Tens of thousands tests to ensure that each detail is more stable, low failure rate, efficient unpacking
- It is equipped with a plexiglass protective cover and automatic alarm, which greatly improves the operator's safety.
- It is used for mineral water, drinks, beer, wine, medicine bottles group packing which does not bottom tray. After packing, the products will become firmer and more good-looking.

Description:

- World advanced technology introduced during manufacturing, imported electrical and pneumatic components applied;
- Manually adjust the machine W and H in accordance with the change of case sizes;
- Automatically fold the top cover, automatically seal top and bottom with tape fastly, smoothly, and attractively;
- Knife protection device available to avoid injury during working;
- Simple and convenient operation, can be used alone or integrated with a packaging line.

Specifications:

Model	WKD-ZGF
Air pressure	0.5~0.7MPa,220V,50/60Hz.
Power	400W
Machine size	L1700*W830*H1450mm
Case size	L200~600*W150~500*H150~500mm
Sealing speed	18~20m/min
Tape size	48/60/75mm*900
Worktable H	600~750mm
