

## V Type Blender V50/200/300/500/1000

The V-type mixer is carefully developed by our company based on foreign advanced technology and combined with our production experience. It is widely used in the mixing of powder materials in the pharmaceutical, food, chemical, building materials industry, coatings, condiments and other industries.

### Features:

1. This machine mixing cylinder structure special, efficiency is high, no blind angle, material adopt stainless steel, wall polishing treatment, nice appearance, equally mixing.
2. It can as per customer's request equip mixer, it can applied to fine powder material mixing.
3. The machine applied to good liquidity dry powder and granular material mixing in pharmacy industry, chemical industry, food industry.

### Parameters:

Type	V50	V200	V300	V500	V1000
Capacity	10	50	80	100	200
kg/ batch					
Mixing time(min)	4~8	6~10	6~10	6~10	6~10
Volume(m <sup>3</sup> )	0.05	0.2	0.3	0.5	1
Speed(r/min)	12	12	12	12	10
Power (kw)	0.55	1.1	1.1	2.2	4
Size L*W*H(mm)	1100×600×1100	1780×650×1850	1800×650×1850	2500×850×2420	2950×1400×3000
Slewing height D(mm)	1450	1850	1850	2450	×3000
