

Tube Filling and Sealing Machine for Plastic Pipe

The automatic tube filling and sealing machine can realize various folding packaging of metal tubes. The same machine can easily realize the packaging of plastic tubes and metal tubes by changing molds and accessories. It is ideal equipment for filling and sealing aluminum tubes, plastic tubes, and composite tubes in cosmetics, pharmaceuticals, food, adhesives and other industries, and meets the requirements of GMP specifications.

Technical Parameters:

Voltage	AC380 / 220V
Power	1.5KW
Air supply pressure	0.6MPA
Production speed	20-50PCS / MIN
Measuring accuracy	less than 1%
Hopper capacity	40L
Filling volume	5-25ML, 15-150ML, 30-200ML
Hose diameter	10-50MM
Hose length	200MM
