

FK-FX-30 Automatic Carton Folding Sealing Machine

Tape sealing machine is mainly used for carton packing and sealing, can work alone or be connect to package assembly line. It is widely used for household appliance, spinning, food, department store, medicine, chemical fields. It has played a certain promoting role in light industry development. Sealing machine is economic, fast, and easily adjusted, can finish upper and bottom sealing automatically. It can improve packing automation and beauty.

Technical Parameters:

- ◆ Conveying Speed: 0-20M/min
- ◆ Maximum Packing Size :L∞x W500x H600mm
- ◆ Minimum Packing Size :L150x W180x H150mm
- ◆ Device dimensions (mm): L1020mm x W850x H1450mm
- ◆ Applicable power supply: 220V/380V 50HZ
- ◆ Weight (kg): 145kg
- ◆ Suitable tape(mm): W48mm/60mm/75mm (choose one)
- ◆ Power(W): 800W
