

## *Automatic Vertical Round Bottle Labeling Machine*

This Automatic Round Bottle Labeling Machine is one of our hottest models, it is widely used, suitable for most bottles, no need to replace additional molds, easy to debug, high accuracy, and small errors.

This Vertical Round Bottle Labeling Machine is composed of stainless steel and aluminum. Meet GMP Standard. We can choose to add a ribbon printer to print the date and number of the product. The content can be up to 3 lines. If you need to enter the QR code, we recommend equipped with inkjet printer.

### **Main Features:**

- ◆ This Round Bottle Labeling Machine is suitable for circle labels of round bottles.
- ◆ The machine is made by 304 stainless steel and high quality aluminum alloy.
- ◆ The belt type label rubbing mechanism is the best feature of the machine, and the running speed is fast. High versatility, suitable for all kinds of round bottles.
- ◆ Use PLC man-machine interface control system, which is easy to operate.
- ◆ Simple structure, easy to operate and maintain.
- ◆ Change different bottle size no need to replace any spare parts because the separation kit is versatile.
- ◆ Servo motor drive labeling head, Max. Labeling speed can to 60m/ min.
- ◆ Advanced humanized interface and online help system.
- ◆ Movable wheels are installed at the bottom for easy movement.
- ◆ It can be labeled twice on the same bottle (must be in the same label roll).

## Technical Parameters:

1. Voltage: AC220V, Single Phase, 50Hz/60Hz
2. Power: 1200W
3. Labeling accuracy:  $\pm 1.0\text{mm}$
4. Labeling speed: Max. 120 bottles/minutes
5. Max. Label width: 100mm ( can be customized)
6. Applicable product size:  $\Phi 30\text{-}\Phi 80\text{mm}$  ( can be customized)
7. Label roll inner diameter:  $\Phi 76\text{mm}$ (can be customized)
8. Label roll outer diameter: Max  $\Phi 350\text{mm}$
10. Machine dimension: 2000mm(L)\* 800mm(W)\* 1500mm(H)
11. Net weight: 300KG
12. Printer is optional, recommend to match the Inkjet Printer.
