

Film Overwrapping Machine WE13

The WE13 film overwrapping machine demonstrates a higher level of basic performance because we improved the film-feeding function, making it more robust; and the tuck function, making it form tighter and more secure tucks. As a result, the WE13 makes a tight and beautiful finished wrap on every item. As an added feature, the WE13 comes with a transparent cover which can slide sideways, making maintenance very easy. In addition, it can be used in production systems to achieve seamless production operations.

Wrapping Specifications:

Wrapping Object Size Range	Length	80 - 320mm
	Width	50 - 143mm
	Height	20 - 89mm*
		*Up to 40ppm if Height Over 50mm
Wrapping Speed	60ppm	
Machine Dimensions	L 2786 x W 1250 x H 1800 mm	
Machine Weight	Approx. 1100 kg
