

Pharmaceutical Grinding and Granulating Machine FZ-150

The Granulator Machine granulating is fast, the effect is good, the design of the special hole of the filter, carefully screening, the friction filter rod can tie the sieve filter solid particles, As a dry granulator, it is widely used in pharmaceutical, chemical, food industry. The whole Granulation Machine is sealed with high quality stainless steel plate. Make the appearance of the machine clean and beautiful, especially the screen using wire mesh or stainless steel plate net.

Technical Parameters:

- Model No.: FZ-150
- Output (kg/h): 150
- Dimension(L*W*H)(mm): 810*445*1345
- Weight(KG): 120
- Power(kW): 1.1
