

## Automatic L-Bar Sealer Shrink Wrapper ZF-A6345

The full-automatic L-Bar sealing machine uses the conveyor belt to automatically operate the product into the folded POF heat shrinkable film. After sealing, the product is heated through the heat shrinkable channel to achieve the effect of sealed packaging.

The L-bar sealing machine is operated by touch screen. The sealing line is strong and beautiful, and the whole machine performance is stable. It can be applied to different specifications of products, and the packaging speed can up to 40-45 bags / min.

### Features:

1. Vertical sealing design, good sealing action stability, high durability, strong and beautiful sealing line.
2. The knife holder has a lifting function, and the sealing line can be adjusted to the middle of the product, so that the packaging is smoother and the packaging effect is more beautiful.
3. The knife holder is made of solid aluminum, the sealing knife is designed as a whole, which is not easy to deform, the sealing line is strong, the sealing is stable and the speed is fast.

### Specification

Model:	ZF-A6345
Machine Size L*W*H:(mm)	1898*1125*1568
Sealing blade size L*W(mm)	630*465
Product size range L*W*H(mm)	(80-560)*(50-380)*(5-180)
Power	1P/220V/50HZ/2.5 KW
Net weight	650KG
