

JHF Full Automatic Lip Balm/Sun sticks Production Line

Application

JHF is specially designed for the lip balm and sun stick products. The machine has function of auto filling, cooling, re-melting, second cooling, second re-melting, auto cap loading, auto capping, auto finished product and container base separating (Reuse the container base)

Features

- Adopt slate conveyor belt. Cleaning and changing is convenient.
- Fill 4~6 pcs each time and filling precision can reach $\pm 0.1g$.
- Pump construction is easy for cleaning, convenient for change material.
- Adopts 5P to 10P compressor on chilling tunnel.
- Operators: 1-2 persons.

Technical Parameters

Dimension	1200*170*189 cm
Capacity	40-60pcs/min (according to raw material and quantity of mold)
Voltage	AC220V, 50/60HZ, 1P
Voltage of Cooling Tunnel	AC380V/(AC220V), 50/60HZ, 3P
Air Consumption	4~7 kg/ cm ²
