

## *B•GF-40 Filling Sealing Machine*

The B•GF-40 filling sealing machine is suitable for automatically filling all kinds of fluids to soft plastic tubes and aluminum laminated tube. It can also seal and cut end and print dates. It can commonly be used in daily chemical, pharmaceuticals, food, chemical industries, etc. It is a kind of PLC control machine universal and multifunctional. The sealed end is firm and good-looking. The filling nozzles in different specifications are provided for materials in different thickness. This equipment will accurately dispense products that are water-thin to viscous gels, mascaras to lipstick, shampoos, serums, lotions, and creams.

### **Features:**

1. This filling and sealing machine, controlled by PLC is one kind of universal machine with multifunction.
2. The sealed end is sturdy and nice.
3. The B•GF-40 filling sealing equipment can be equipped with all kinds of filling head to meet the special filling nozzles.

**Main Technical Parameters:**

Power supply	380(220) V/50Hz		
Air supply	0.6-0.8 MPa		
Air consume	<0.5m <sup>3</sup> /min		
Filling volume	10-50 ml	50-100 ml	100-200 ml
Volume precision	≤±5%	≤±3%	≤±2%
Productivity	25-30 pcs/min		
Tube diameters	φ16-φ50 mm		
Dimensions (L×W×H)	1100×850×1500 mm		
Weight (kg)	300 kg
